Attachment to Form 8937
Report of Organizational Actions Affecting Basis of Securities
Debt Instrument: 3.00% Convertible Senior Notes due 2018

Current IRS guidance under Section 6045B provides that if a company pays a cash dividend with respect to stock resulting in a conversion rate adjustment on a convertible debt instrument that is treated as a deemed distribution, an information return on Form 8937 must be filed with the IRS, or in lieu of filing, posted on the company's public website.

The information contained in the Form 8937 and this attachment is intended to satisfy those requirements and is intended to provide a general summary of certain U.S. federal income tax consequences of the conversion rate adjustments. This information does not constitute tax advice and does not purport to take into account any holder's specific circumstances. Holders are urged to consult their own tax advisors regarding U.S. tax consequences of the adjustments described herein and the impact to tax basis resulting from the adjustments.

Form 9937, Part II, Line 14

On September 16, 2013, Alon USA Energy, Inc., ("Alon") issued 3.00% convertible senior notes due 2018 (the "Convertible Notes"). The terms of the Convertible Notes include anti-dilution protection that provides for an increase in the number of shares of the common stock issuance upon conversion.

As previously announced, Alon entered into an Agreement and Plan of Merger, dated as of January 2, 2017 (the "Merger Agreement") by and among Holdco, Astro Mergeco, Inc., a Delaware corporation and wholly owned subsidiary of Holdco ("Astro Merger Sub"), and Alon, as amended from time to time. As provided in the First Supplemental Indenture (the "Supplemental Indenture") dated July 1, 2017 by and among Alon, Delek US Holdings, Inc., a Delaware corporation and f/k/a/ Delek Holdco, Inc. ("Holdco"), and the Trustee, and in accordance with and subject to Section 4.07(a) of the Indenture, from and after the Effective Time (as defined in the Supplemental Indenture), in lieu of any rights to convert Notes into or based on shares of Common Stock (as defined in the Indenture), the Holders of Notes are thereafter entitled to convert each \$1,000 principal amount of Notes into or based on a number of Units of Reference Property (as defined in the Indenture) equal to the Conversion Rate in effect immediately prior to the Effective Time. As set forth in the Supplemental Indenture, at the Effective Time, the Common Stock converted into the right to receive and be exchangeable for 0.5040 shares of common stock, par value \$0.01 per share, of Holdco (the "Holdco Common Stock," with such number of shares of Holdco Common Stock being a "Unit of Reference Property" as defined in the Indenture).

Under the anti-dilution provision, Alon made an adjustment to the conversion rate of the Convertible Notes as a result of making cash distributions in excess of \$0.11 per share for January 1, 2018 through March 31, 2018. The increase in the conversion rate resulted in a deemed distribution to its convertible debt holders under section 305(c) in the amount listed below:

Summary of Adjustments per \$1,000 Note			
Date of Adjustment	Conversion Rate Increase	Stock Price*	Tax Basis Adjustment
March 9, 2018	0.1812	\$ 37.20	\$ 3.3973 **
Total for January 1, 2018 through March 31 2018			\$ 3.3973

*DK US Holdings stock closing price on trading day before the ex-dividend date.

** Includes adjustment of .5040 shares of common stock, par value \$0.01 per share, of DK US Holdings.

Form 9937, Part II, Line 15

For U.S. federal income tax purposes, Alon expects the adjustment to the Convertible Notes to be treated as a taxable dividend distribution under section 305(c). As a result of the treatment of the adjustment as a dividend distribution, each holder's tax basis in the Convertible Notes should increase by the amount shown above.

Holders should consult their tax advisors to determine the tax consequences of the adjustment to them.

Form 9937, Part II, Line 16

The tax basis adjustment was calculated using the formula:

$$\text{Tax Basis Adjustment} = (\text{New Conversion Rate} - \text{Prior Conversion Rate}) \times \text{Market Value}$$
